

Wireless Access Reader

WR1-B

WR1-W

Product Advantages

The wireless Reader Kit includes a Wireless Reader and a Receiver. 433MHz Rolling Code of encryption algorithm guarantees higher-secure, programmable Wiegand output of the Receiver makes it can work with most Wiegand controller in the world. Super strong 3M stickers provide a simple way for installing the Wireless Reader.

- Communication Frequency: 433MHz
- Communication Distance: 30m Maximum

Specifications

Card Type	13.56MHz Mifare Card
Voltage	3 units of AAA batteries
Waterproof	IP65
Color	Black, White optional
Dimension	120 x 50 x 20mm
Voltage	DC12V(Receiver)
Wiegand Output	26 bits Or 34 bits(Receiver)
Dimension	50 x 25mm(Receiver)

Dimensions(mm)
